

Santa Ana del monte

Residents Cooperative

4th July 2008

Dear Members,

Over the last 3 weeks we have been liaising with the Costa Blanca News in trying to find out the situation regarding SADM. I am pleased to be able to tell you that a story has been printed in this week's edition with comments from Jumilla town hall stating that the final build licence is available. It also states that SJ are seeking finances to continue with the build.

The CBN was looking to see if this was a legal build and have found that it is and it now appears that everything is above board. There was concern due to what had occurred on some other SJ developments that SADM was in the same position with bad practices, however, I am pleased to say that does not appear to be the case. Thus, the probability of us getting our houses has increased and we will be pushing to get things back on track ASAP.

There are also 2 letters published on the letters page in support of SADM and the continuation of the build. We are having an impact and SARC and hence the purchasers are getting the message across of, "**I want my House**". It may be only 4 words but it has very simply conveyed our frustration and desire to get what we have paid for and being short and sweet it is highly memorable.

The links for the publications are:

I want my house and I want you all to have yours too!

Anthony Malpass
